It’s all about you
San Diego State University, California State University San Marcos, and Military Education Services Officers from Southern California have come together to offer Professional Science Master’s and Graduate level Certificate Programs designed to take advantage of your background, skills, and experience, and expand your career opportunities.

Professional Science/Technology Graduate Programs are your gateway to high-paying, high-demand jobs
These programs provide training and employment opportunities in important science, technology, engineering, and mathematics fields.

Veterans and military benefits eligible
These programs qualify for veteran’s benefits, tuition assistance, and other sources of financial aid intended to enable you to further your education. Veterans program coordinators will help you maximize your benefits.

It’s all online
To make it easy for you to participate from anywhere in the world, all courses offered in these specially-designed Professional Science Certificate and Master’s Degree programs for Veterans and active duty military are available entirely online.

Programs offer a variety of educational opportunities

Regulatory Affairs Certificate
- Prepares individuals for Life Sciences industry jobs in such fields as: Biotechnology, Medical Devices and Diagnostics, and Pharmaceuticals.
- Earns credit toward Professional Master’s Degrees in: Bioinformatics, Biostatistics, Biotechnology, Medical Product Development, or Regulatory Affairs.
- Begins with RA 781: Practical Ethics for Healthcare Professionals

Computational Science Certificate
- Prepares managers of technology in a range of computer science, informational technology, and applied science research fields.
- Earns credits toward a Professional Science Master’s Degree in Computational Science.
- Begins with COMP 601: Business Skills for the Information Age

Professional Science/Technology Certificate courses count toward a Master’s Degree
All Professional Science Programs are designed with the flexibility to take you where you want to go. Start with a four-course Certificate Program and work toward a Master’s Degree. Or start on your Master’s Degree and earn a certificate en route. It’s all up to you. And it’s all at your fingertips, 24/7.

Course credits are transferable
All courses in the Certificate and Degree Programs:
- Are California State University (CSU) graduate courses
- Will be recorded on a CSU transcript
- Are transferable to all 23 CSU campuses
- Normally transfer to other universities nationally*
  *The accepting University is responsible for determining how/whether a specific course is applicable to a particular degree.

Here’s what you need to get going
Certificate Admissions Requirements
- Undergraduate degree (BS or BA) with:
  - an undergraduate major in science, technology, engineering, mathematics, computer science, or a related field, or
  - science/technology experience

Master’s Degree Admission Requirements
- Varies by program, see web site below.
