How a Certificate Program Can Benefit You
Certificates Can Help You
- Learn relevant skills for a new career
- Increase job knowledge to support a promotion
- Network with other professionals
- Obtain Professional or Continuing Education Units (CEUs)
- Stay current in your profession
- Prepare for qualifying industry exams
- Obtain practical, cutting-edge knowledge
- Explore a new career field
- Meet your business needs with customized programs

Frequently Asked Questions
Are the courses graded?
Most programs that receive academic credit offer the option of a letter grade or CR/NC (Credit/No Credit).

Do courses count for academic credit?
Certain courses receive academic credit and this information is listed with each programme. For more information about course credit, see page 43.

What is an Open University Certificate?
These certificate programs are completed by taking SDSU courses through Open University, and have special admission requirements. For more information, visit us online at neverstoplearning.net/onlinecertificate.

What if my company is paying for the classes?
If your company is paying for the classes with a purchase order, please be sure the PO accompanies the registration. If paying by company check, please mail the check and registration to the College of Extended Studies Registration, San Diego State University, 5250 Campanile Drive, San Diego, CA 92182–1919.

How do I register?
1. Online: neverstoplearning.net
2. By phone: (619) 554-5162
3. In person: see address
4. By mail: College of Extended Studies Registration, San Diego State University, 5250 Campanile Drive, San Diego, CA 92182–1919.

SDSU is an Approved Provider for the New Federal Workforce Innovation and Opportunity Act (WIOA). SDSU is committed to building a strong employable workforce in San Diego with targeted industry-specific career training programs. These programs ensure employees have the core competency skills and tools they need to help local businesses thrive. A variety of programs ensure that career needs and goals are met.

Tuition Payment Eligibility

The federal Workforce Innovation and Opportunity Act (WIOA) helps you find a job or train for a new career.

- All adults, age 18 or older, are eligible to receive services.
- Approved programs are complimentary to approved clients.
- America’s Job Centers of California provide services locally. The Job Center near you will determine if you are eligible to receive financial assistance for training from a provider.
- There are six locations around the SDSU area.
- To be eligible for the dislocated worker program, you must have received a lay-off notice or have been laid off due to a company closure or mass layoff. You may also be eligible if you are currently unemployed and are unlikely to return to your prior occupation due to economic conditions in that industry.

Accounting

Open University Certificate

in Accounting

SDSU’s Certificate in Accounting provides professional and post-baccalaureate certification to accounting and non-accounting professionals in the community. This program is intended to provide professional training necessary for candidates to sit for the CPA or CMA examinations. The courses in this certificate consist of regular SDSU courses.

Visit cbaweb.sdsu.edu/accountancy/certificate or contact the faculty advisor for the certificate program, Leon Chan, Ph.D. at (619) 594-4304 or email bchan@mail.sdsu.edu. For general information, contact the CES coordinator at (619) 594-2517.

For more information, you may also email kmcetchin-w@sdsu.edu or call (619) 594-3946.

This program is eligible for military spouse and veterans’ education benefits.
Accounting and Finance
Executive Financial Planner Advanced Certificate
Consider a Career as a Financial Planning Professional
This CFP® Board-registered certificate program is a step in achieving the Certified Financial Planner™ certification. Upon successful completion of this 18-unit program, participants will be awarded an SDSU Executive Financial Planner Advanced Certificate, which meets the educational requirements to sit for the CFP® Board exam.

Who Should Apply — Do You Meet One of These Criteria?
- Financial service firm employees with a client contact or office experience
- Attorneys, CPAs, enrolled agents, and CPAs
- Accountants and financial professionals
- Candidates with degrees in business with management experience
- Military veterans (O4+ or E5+)

Fully accredited by the AACSB International, the College of Business Administration conveniently offers the Executive Financial Planner program. Students pursuing further graduate studies may apply units from this certificate toward the Master of Science degree in Financial and Tax Planning.

Certificate Requirements
Applicants eligible for the Executive Financial Planner program should have a bachelor’s degree with at least a 2.85 grade point average and meet one of the criteria described above. Others will be considered on a case-by-case basis. To be admitted to the program, candidates must meet the departmental and university admission requirements.

Students who earn the certificate will complete 18 units of coursework including FIN 502, FIN 590, FIN 657, FIN 705, and ACCT 503. SDSU offers three CFP® Board-registered financial planning programs that qualify graduates to meet the education requirement to sit for the CFP® Board examination. In addition to the six-course (18 unit) program described here, students may also qualify for the CFP® Board exam by earning either of the following on-campus degrees:
- BS in Financial Services with a Certificate in Personal Financial Planning
- MS with a Concentration in Financial and Tax Planning

How to Apply
Visit SDSU’s Personal Financial Planning website at sdsu.edu/fpinplan. Click on Executive Financial Planner and download the preliminary application form. Send the completed application form to the program director, Thomas Warschauer, Ph.D., CFP®, at tom.warschauer@sdsu.edu before the next class. One three-unit certificate class taken prior to matriculation may be transferable to the Executive Financial Planner Advanced Certificate program. Please contact Professor Warschauer for more information.

In order to earn an advanced certificate or master’s degree, you must apply and be admitted to SDSU and earn a 3.0 grade point average in the program.

Executive Financial Planning Curriculum
(Each 12-week, three-unit class meets Tuesday afternoons, except FIN 590, which is offered Thursday afternoons):

Financial and Retirement Planning
FIN 657 Decision-making process and theory of individual financial decisions. Planning and implementation of financial strategies that aid in meeting family goals. Counseling, ethics, preparation of financial plans using cases and individuals.

Seminar in Investments
FIN 651 Characteristics of financial markets and instruments; pricing individual securities; portfolio selection and analysis; measurement of risk.

Estate Planning
FIN 705 Identification and analysis of those aspects of federal and state law affecting estate planning and taxation.

Federal Taxation of Individuals
ACCT 503 Taxation of individuals, including income, deductions, credits, social security taxes, and property transactions.

Individual Insurance Management
FIN 522 Economic, legal, social and ethical considerations of individual, business, and group insurance, including life, health, property, liability, and social insurance.

Estate Planning
FIN 705 Preparation of legal instruments that will be responsive to your needs. An emphasis on the key concepts associated with the administration and execution of estate planning documents.

Federal Taxation of Individuals
ACCT 503 Taxation of individuals, including income, deductions, credits, social security taxes, and property transactions.

Individual Insurance Management
FIN 522 Economic, legal, social and ethical considerations of individual, business, and group insurance, including life, health, property, liability, and social insurance.

Personal Financial Planning Practicum
FIN 590 Preparation of financial instruments that will be responsive to your needs. An emphasis on the key concepts associated with the administration and execution of estate planning documents.

Certified Financial Planner Board of Standards Inc. owns the certification marks CFP®, CERTIFIED FINANCIAL PLANNER™ and federally registered CFP® (with flame design) in the U.S., which it awards to individuals who successfully complete the CFP® Board’s initial and ongoing certification requirements.

Let SDSU Come to You for Corporate Training and Performance

Partner with our team for comprehensive, cost-effective, and customized professional development programs designed to support your organization’s key strategic objectives and meet your employees’ specific development goals.

The CES Professional Development division provides clients with a wide range of carefully selected business experts and consultants in the San Diego area. We save your organization time and energy by conveniently offering pre-screened qualified professionals who can deliver effective training and business solutions.

How Can You Benefit from SDSU’s Wealth of Experience?

Convenience
Programs can be delivered at your site, our campus center, or another location of your choice.

Tailored to Meet Your Needs
We listen carefully to your concerns, help you assess your organization’s needs, and then develop a program to meet your organizational objectives.

Conducted by Leaders in the Field
Courses are facilitated by real-world experts with solid working experience in your industry. We guarantee hands-on, experiential learning from qualified fellow practitioners.

Applicability
Groups share their experience and learning in a confidential setting and work on relevant projects that address your organization’s critical business issues. All attendees receive consistent messages, skills, and concepts.

Cost Effective
On-site training eliminates travel time and expenses, because it is delivered to your employees at your location and at a convenient time.

Our Most Popular Programs Include:

- Management and Leadership
- Lean Enterprise
- Lean Six Sigma
- Project Management
- Business Writing

SDSU Research Foundation Program

Open University Certificate in Entertainment Management

The basic certificate in Entertainment Management provides students with specialized knowledge and skills in the area of backstage management of people, equipment, and technology in the performing arts. These courses create a foundation of knowledge for entry-level career positions in managerial and business environments of the events and music industry, and are created for those who want to expand their knowledge of management and production.

The certificate is for students and community members who want to pursue careers as production managers, producers, stage managers, and entrepreneurs, in the areas of live performing arts.

For more information on Open University classes, visit us online at neverstoplearning.net/opencertificate.

Visit http://ttf.sdsu.edu/index.php/degree_programs/certificate-in-entertainment-management; contact Jay Sheehan at (619) 594-4990 or jsheehan@mail.sdsu.edu.

For general information, contact the CES coordinator at (619) 594-2517. For more information, you may also email kmcetchin-w@sdsu.edu or call (619) 594-3946.

Approved provider for military spouse and veterans’ benefits for this program.
**Why Grant Proposal Writing?**

San Diego is home to thousands of nonprofit organizations ranging from large educational institutions and hospitals to small, start-up agencies. These organizations must compete for funding in an increasingly challenging funding environment. Grant writing is a key component of securing funding for many of San Diego’s most dynamic organizations. Learn why additional training capacity in comprehensive grantwriting research, and strategies will enable you to craft proposals that are important in securing funding for programs, initiatives, and other organizational needs. Students will learn how to prepare to write a proposal, identify funding prospects, understand grant guidelines, and develop a compelling program narrative and budget. Students will learn how to construct a proposal that is clear and persuasive in its “ask” and resonates with the priorities of various funders.

**Introduction to Grants and Funding Research**

An overview of why grants are funded, and what makes a prospective grantor interested in an organization and its proposal. Learn about interacting with grant-making agencies, types of grants and how to find them, grant applications, the award process, and grant management and compliance.

**Grant Proposal Development**

A comprehensive guide to developing, writing, and submitting a winning grant proposal. The course is designed for anyone tasked with developing and writing grant proposals to secure funding for programs, initiatives, and other organizational needs. Students will learn a seven-step process that starts with the basics (making sense of the Request for Proposal), moves through developing a compelling program and budget, and ends with the submission of a flawless proposal. Students will have ample opportunity to practice their newly acquired skills under the guidance of an expert teacher and will leave the course having mastered a proposal writing technique that will serve them time and again.

---

**Who Should Attend**

New grant writers; employees from: nonprofit organizations, city and county governments, chambers of commerce, education (private and public), public health, and social work; as well as independent consultants and grant writers needing CEUs. The first course in the sequence is an intro-level course for those with little or no experience developing grant proposals. The second course in the sequence will provide students of all levels with an opportunity to practice and develop grant-writing skills.

**Certificate Requirements:** Students must successfully complete two online courses: **Introduction to Grants and Funding Research** and **Grant Proposal Development.**

**Total Time: approximately 20 hours per course.**

---

**Management and Leadership**

As a manager, you already know the importance of soft skills in the workplace. Effective communication, emotional intelligence, problem-solving, delegating, motivating, and team-building skills are all crucial to the success of individuals and the company as a whole.

In just eight half-day workshops, learn how to enhance your soft skills and bring out the best in your employees. The Professional Certificate in Management and Leadership is a series of workshops (twice monthly, 8:30 am–12 pm) covering a broad range of management and leadership topics. Workshops may be taken individually to earn a letter of completion or as a group of eight workshops to earn a professional certificate.

---

**Who Should Attend**

Sdsu Research Foundation Program
Professional Certificate in Marketing

Constant evolution has become the new reality for marketers. To remain relevant, today’s marketing leaders must be more nimble, data-driven, and customer-centric than ever before. Demonstrate your ability to stay ahead of the curve by taking the courses you need to bring your skills to the forefront. Or take the entire program and earn a Professional Certificate in Marketing. The Professional Certificate in Marketing requires successful completion of the six core courses, and two electives within two years.

If you’re in a junior marketing position, are a business owner managing your own marketing, or aspire to venture into a new career, these game-changing courses are for you. SDSU's College of Extended Studies and SDX joined forces to offer this up-to-the-minute program, taught by instructors who lead the way in the local marketing community. You’ll learn skills and multiphase strategies you can apply immediately.

Textbook Required: Find textbook/course material information at shopaztecs.com/es.

For more information, please email marketing.ces@sdsu.edu or visit neverstoplearning.net/marketing.

Core Courses
- Defining and Positioning a Brand (12 hours)
- Developing an Integrated Marketing Plan (18 hours)
- Market Research and Measuring Tools (15 hours)
- Marketing Communications (12 hours)
- Content Marketing and Strategy (15 hours)
- Mobile Marketing (12 hours)

- Increasing Traffic to Your Website (18 hours)
- Media Selling and Buying in Today's Market (15 hours)
- Developing the Creative Brief (12 hours)
- Visual Communications (15 hours)
- Digital Content Strategies: What Makes People Click (12 hours)

Writing for the Web (12 hours)
Computers

Advanced Certificate in Web and Mobile Applications Development

The Certificate in Web and Mobile Applications Development provides students with the specialized knowledge that is important in the development of web and mobile computer applications. You will study and gain experience with the languages and frameworks that are most commonly used in web and smartphone apps development such as those used for iPhone applications or Android software, with the design of user interfaces and software systems, and with associated topics such as networking, hosting infrastructure, and security. You will also learn the fundamental principles on which these topics are based, in preparation for the new technologies that are constantly being developed.

Taught by expert instructors who provide personalized guidance and feedback to support students’ success, these graduate courses emphasize project-based learning as well as theory for web designers, mobile applications developers, and programmers interested in enhancing skills in the latest web and mobile technologies.

This is an advanced academic certificate at the postbaccalaureate level. The admission requirement is a bachelor’s degree in computer science or a closely related field. Individuals with an equivalent knowledge of the background materials through work or self-study may be accepted into this program at the discretion of the program director. You may complete courses via distance education or as a blend of classroom and online instruction.

Visit our website for upcoming course offerings at neverstoplearning.net/mobile.

Program Benefits

- Graduate-level courses may be applied to a master’s degree
- Earn the certificate in less than one year
- Learn on campus at SDSU or online
- Approved for federal financial aid through SDSU Financial Aid office

Award of Certificate

The certificate requires completion of at least four courses (12 units) from the list of courses below, selected with the approval of the program advisor. Courses are offered in the late afternoon and evenings or online:

- CS 545 Introduction to Web Applications Development
- CS 546 Human Computer Interfaces
- CS 547 Programming and Scripting Languages for Web Applications
- CS 646 Advanced Web Applications Development
- CS 645 iPad/iPhone Mobile Applications Development
- CS 646 Android Mobile Applications Development
- CS 648 Emerging Web and Mobile Technologies

Visit cs.sdsu.edu/courses to find full course descriptions.

At least two of the four courses taken to earn the certificate must be at the 600 level. Three courses will be offered each fall and spring semester, so the certificate can be completed in as little as two 16-week semesters.

Consult with your graduate advisor to see if the courses taken in this certificate program may be applied toward the Master’s degree in Computer Science.

Visit cs.sdsu.edu/applying-to-the-program for instructions on how to apply to the program.

Note: The GRE is not required for admission.

For more information, please contact the department’s website at cs.sdsu.edu, or contact the Computer Science Department Chair, Leland Beck, Ph.D. at beck@mail.sdsu.edu.

In order to earn an Advanced Certificate or Master’s degree, you must apply and be admitted to SDSU. For more information, please contact the Division of Graduate Affairs at gradweb.sdsu.edu, or contact the College of Extended Studies at cs.sdsu.edu, or visit the department’s website at cs.sdsu.edu/admissions/grad/index.html or call (619) 594-5213.

SDSU Construction Supervision Graduate: ‘Having the courses 100 percent online made my success possible’

SDSU’s Online Construction Courses Prove ‘Invaluable’ to Software Curriculum Developer

These programs are authorized by SDSU’s College of Engineering and offered in cooperation with the National AGC. Each course meets online for 10 weeks. Discussions using an online bulletin board afford the opportunity to examine everyday construction challenges shared by others in the industry. Students should budget five to seven hours per week for each class.

Each Course Earns SDSU Professional Development Credit

Professional Certificates in Construction Estimating, Practices, Supervision, Civil Sitework, Project Management

Workplace Benefits

- Proven techniques from experts in construction specialties
- Practical on-the-job skills you can use right away
- The knowledge you need to move into supervisory or management roles

Location of Classes

These certificate programs are held online. Access to the Internet is required.

Four Online Construction Certificate Programs

Create your own future. Classes are starting soon, so check out this online video for more information.

Online Construction Certificate FAQs

What is a “professional construction program—what and what can it do for me” if this is a...

“Your knowledge gained was extremely practical and directly construction-related, and has helped me advance in my field. The online learning platform was very practical and easy to use. Every instructor was knowledgeable and knew the industry very well. Excellent program and my favorite online platform of most courses taken at other universities.” — Wendy Fitzgerald

Construction continued
Professional Certificate in Construction
continued

Professional Certificate in Civil Sitework Construction

Get equipped with career advancement skills in the areas of sitework development including excavation, site utilities, and roadway improvements. Develop usable skills in construction equipment utilization, civil blueprint reading, and civil estimating. Excavation, roads, bridges, and underground utilities are also covered. Learn how to work with the earth; how to select, use, and budget for the best equipment needed to transform a plot of land into a developed site; and how to utilize related construction documents.

To earn the Certificate in Civil Sitework Construction, students must receive a passing grade in the four core courses plus one elective.

Courses (Complete four core classes + one elective)
ENGR 43 Construction Equipment and Methods
ENGR 44 Practical Applications of Civil Sitework
ENGR 45 Estimating Civil Construction
ENGR 46 Civil Blueprint Reading and Materials

Elective courses (complete either one of two)
ENGR 31 Contract Documents and Construction Law
ENGR 32 Planning and Scheduling

Do you want to take only specific construction classes? You can!
If completing a full certificate is not an option for you right now, you may enroll in the individual classes that are most relevant to you.

Professional Certificate in Construction Project Management

The Construction Project Management program provides an all-encompassing overview of construction project management principles and best practices presented in a clear and concise format. Construction managers have a hand in every aspect of a project — from the planning stage with architects and engineers, to the budgeting stage with cost estimators, to the production stage with laborers, and the close out and occupancy stage with the owner and occupants.

Employment of construction project managers is expected to grow 16% from 2012 to 2022, faster than the average rate for all occupations, according to The Bureau of Labor Statistics.

Learn the principles of project management — from planning and scheduling, to the legal aspects of construction, contracts and insurance; equipment selection; and the principles of green construction.

To earn the Certificate in Construction Project Management, students must receive a passing grade in the five courses offered.

Courses
ENGR 47 Construction Project Management
ENGR 32 Planning and Scheduling
ENGR 38 Building Green Buildings: The Contractor’s Perspective
ENGR 43 Construction Equipment and Methods
ENGR 31 Contract Documents and Construction Law

Professional Certificate in Construction Supervision

Construction supervision requires a wide variety of skills including: people skills (effective leadership, accident prevention, and clear communication), technical skills (planning, scheduling, cost control, and productivity improvement), and management skills (project management, contract and document comprehension, and complex problem-solving). The Certificate in Construction Supervision is a variation on the popular AGC Supervisory Training Program with added material such as web tours, expanded topic studies, and group problem-solving sessions addressing common industry issues.

Students must complete a total of eight courses including six core courses and two electives to earn the certificate in Construction Supervision with an emphasis in either Civil Sitework or Building.

Courses (Complete six core classes + two electives in area of emphasis)
ENGR 32 Leadership and Motivation
ENGR 30 Oral and Written Communication
ENGR 43 Problem Solving and Risk Management
ENGR 31 Contract Documents and Construction Law
ENGR 32 Planning and Scheduling
ENGR 43 Construction Productivity and Cost Management

Elective Courses (Complete two in chosen area of emphasis)
Emphasis in Civil Sitework:
ENGR 43 Construction Equipment and Methods
ENGR 44 Practical Applications of Civil Sitework

Emphasis in Building:
ENGR 38 Building Green Buildings: The Contractor’s Perspective
ENGR 43 Construction Project Management

Professional Certificate in Civil Sitework Construction

Elective courses

ENGR 31 Contract Documents and Construction Law

American Language Institute (ALI)

Located on the campus of San Diego State University, the ALI has over 42 years of excellence in English as a Second Language instruction and international programming. The ALI offers a full range of programs for international students and professionals, including intensive English, academic English, business English, test preparation, certificate programs, teacher training, and other customized programs.

Visit ali.sdsu.edu, facebook.com/ali.sdsu, twitter.com/ali_sdsu, call (619) 594-5907, or email ali@mail.sdsu.edu

SDSU Research Foundation Program

English as a Second Language (ESL)

International Training Center

The International Training Center (also known as ITC) was created as a program of the College of Extended Studies (CES) at San Diego State University in 1984 and became an independent entity in 2002. Well-known live satellite programs, transmitted from KPBS-TV to various nations mostly in the Americas, cover topics such as business and management, job trends and employment, human networks and productivity, telecommunications and information technologies, security, health, demographics, environmental quality, and global competitiveness.

For additional information, please contact Miguel A. Cardenas, president, International Training Center (ITC) by phone at (619) 934-0797, by email at mcardena@mail.sdsu.edu, or online at itcsandiego.com.
Workplace English

In a global marketplace, people from different countries with different language backgrounds often work side by side — either physically or electronically.

To ensure the effective communication that is essential for businesses to thrive, the ALI delivers English language training for non-native English speakers. We create custom Workplace English programs to meet the needs of each organization. So your employees will develop their language skills through communicative activities that simulate actual language usage in your workplace. And for the convenience of you and your employees, we bring the classroom to you.

Courses
- Pronunciation Improvement
- English for Presentations
- Business Writing for Email, Documents, and Technical Manuals
- Success Skills for Non-Native English Speakers in American Business Culture
- Training for Supervising Non-Native English Speaking Employees

Visit ali.sdsu.edu/workplace, contact Stephen Howell at (619) 594-8662, or email stephen.howell@mail.sdsu.edu.

SDSU Research Foundation Program

English Language Development for Academic Literacy Certificate

This certificate program provides K-12 teachers and other education professionals with specialized preparation for developing academic literacy assessment, curriculum, and teaching methods specifically designed to meet the needs of English Language Learners (ELLs).

The Academic Literacy Certificate provides further development in theory and methods for evaluation, development, and implementation of appropriate language assessment, effective instruction to ELLs specific to developing academic literacy in English, and culturally responsive curriculum and teaching strategies.

The program is designed for professionals working in programs or classrooms with diverse language learners. Successful applicants must have completed a bachelor's degree from an accredited institution and hold a current teaching or administrative credential.

Prerequisites
Successful applicants must have completed a bachelor's degree from an accredited institution and hold a current teaching or administrative credential.

Certificate Requirements
A minimum grade point average of 3.0 must be maintained in certificate coursework with no less than a grade of B in any course. Required courses (12 units).

For detailed program information, email dle@mail.sdsu.edu, call (619) 594-5155, or visit go.sdsu.edu/education/dle/professionalcertificates.aspx.
Profession Development for Educators

Three Unit courses

Getting Googled: Eliminating Excuses Through the Free Resources of Google: Learn how to effectively utilize and teach using Google applications to develop curriculum, acquire resource awareness, and produce e-course options to change the classroom and eliminate obstacles to student success.

Hidden Histories: Race and Ethnicity in America: Focus on history as an investigative process to better understand the complexity of the issues surrounding race, gender, and ethnicity.

iPads in Education: Explore the functionality and capabilities of the iPad as a teaching tool and link this technology with your school’s curriculum.

iPads for Autism Education: Develop an awareness of how the Autism Spectrum affects student learning and how to use technology to develop differentiated learning strategies for the classroom.

Two Unit courses

Smart Phones in the Classroom: Strategies for Effective Implementation: Discuss the pros and cons of smart phones in the classroom, examine smart phone use policies, review potential apps, and design a lesson plan that effectively implements smart phones in the classroom.

Bullying Prevention: Explore how bullying is a result of community relationships and how to prevent bullying from happening in the classroom as well as assist students in healing.

Teaching Children with Challenging Behavior: Gain and develop evidence-based tactics to help students manage their emotions, shape behavior instruction, and work with families, school social workers and psychologists to solve problem behavior in the classroom.

Teaching Social Skills to Students with Autism: Learn interventions to help improve student motivation and self-esteem, and the development of important social skills leading to increased academic achievement.

Teaching to Diverse Abilities: Learn field-tested strategies and principles including learning centers, hands-on activities, and investigative projects to help create successful learning environments that address the diversity of mixed ability classrooms.

Augmented Reality in the Classroom: Explore the expanding world of Augmented Reality (AR) through the use of free, user-friendly, web-based tools that K-12 teachers can add to classroom curriculum with differentiated instruction for varied computer expertise and grade level.

One Unit courses

Most Likely to Succeed: Preparing our Kids for the Innovation Era: Based on the book, Most Likely to Succeed: Preparing Our Kids for the Innovation Era, this book study will explore the difference between what students must do to earn a degree (high school or college) versus what makes them most likely to succeed in work, citizenship, and lifelong learning.

Best Practices and Classroom Strategies for Educator Wellness: Focus on best practices in classroom, stress and wellness management that are designed to help the educator as a whole.

Flipping the Classroom: Focus on learning to deliver instruction online outside of the classroom and to move homework into the classroom allowing for interaction with students as they complete their work and the one-on-one attention needed for success.

Online Videos for Instruction: Examine ways to tap into thousands of online videos for use in the classroom to help students move from knowledge to critical thinking and finding answers on their own.

Professional Certificate in Cultural Competence for Educators — New Cohort Starting Fall 2017

Being culturally competent means having the ability to recognize and respond to the diversity of the world around you and to make better decisions based on that understanding. As educators, this topic has become vital in fostering a positive environment in the classroom and ensuring equity of opportunity for students of different backgrounds. The Professional Certificate in Cultural Competence for Educators is designed for those looking to develop culturally relevant teaching strategies to address issues related to teaching in diverse school settings.

This Four-Course, 12-Unit Program:

- Accommodates the schedule of the working professional and takes less than a year to complete
- Combines classroom lectures with individual practicum work to allow educators to make an immediate impact at their schools.

For detailed program information visit http://ces.sdsu.edu/educators, email educators.ces@sdsu.edu, or call (619) 594-3297.

For information, visit go.sdsu.edu/education/cultural-competence-certificate.aspx.
The Environmental Studies Certificate is designed for students already holding a bachelor’s degree (in any field) who desire to increase their understanding of the theoretical and applied approaches to environmental problems and issues. This is not a certificate program in the hard sciences, but rather is intended to provide diverse ways for students to develop knowledge of the causes and consequences of the human impact on the environment and the impact on humans of philosophical, political, economic, spatial, and natural science perspectives.

This professional development program offers a multi-disciplinary approach to environmental studies for natural resource managers, teachers, community activists, and others who are concerned about the interaction of people and the environment. Students must complete the required units with a 2.5 grade point average. A bachelor’s degree from a university is also required. Students interested in the Environmental Studies Certificate will normally enroll in courses through Open University. Prior to enrollment, contact Professor Donna L. Ross, School of Teacher Education, to develop an approved program of coursework.

For more information, please contact the faculty advisor for the certificate program Donna Ross at (619) 594-6129 or dlross@mail.sdsu.edu. For general information, contact the CES coordinator at (619) 594-2517. For more information, you may also email kmcotchin-w@sdsu.edu or call (619) 594-3946. Approved provider for military spouse and veterans’ benefits for this program.

The College of Extended Studies and the SDSU Departments of Geography and Computer Science now offer a Certificate in Geographic Information Science focused on skills in geospatial technology. The certificate courses combine various aspects of computer science with geographic information systems (GIS), remote sensing, cartographic visualization, and data analytics. According to the U.S. Department of Labor, geospatial technology is one of high growth job areas.

For more information, contact the certificate advisors, professor Piotr Jankowski at pjankows@mail.sdsu.edu or (619) 594-0640; or professor Carl Eckberg at eckberg@rohan.sdsu.edu or (619) 594-6384. For general information, contact the CES coordinator at (619) 594-2517 or visit geography.sdsu.edu/Programs/giscert.html. For more information, you may also email kmcotchin-w@sdsu.edu or call (619) 594-3946. Approved provider for military spouse and veterans’ benefits for this program.
Clincial Medical Assistant

In this comprehensive program, students will gain skills needed to assist physicians. Instruction includes preparing patients for examination and treatment, routine laboratory procedures, and diagnostic testing. Additional topics covered include phlebotomy, EKG, pharmacology, ethics, and the legal aspects of health care. This program includes 140 hours of classroom lecture and hands-on labs and a 160-hour clinical externship opportunity at a local health care service provider for students who qualify. Certification exam administered in class. Students will be required to provide immunization records, PPD (TB) test results, a negative nine-panel drug screen, and background check at their own cost (approximately $300 for externship).

EKG Technician Certification

This comprehensive 52.5-hour classroom course will prepare students to perform as an EKG Technician and sit for the American Society of Phlebotomy Technician (ASPT) Electrocardiograph (EKG) Technician exam. Important practice and background information on anatomy and physiology of the heart, disease processes, electrocardiography and stress testing, medical terminology, medical ethics, and legal aspects of patient contact are covered. Additionally, students receive hands-on training including introduction to the function and proper use of the EKG machine, proper lead placement, and other clinical practices.

For more information, call (619) 594-3297 or email healthcare.ces@sdsu.edu.
The College of Extended Studies is a state-approved provider for the federal workforce investment act and MyCAA for these programs.

SDSU Research Foundation Programs

Pharmacy Technician Certification Board’s (PTCB) PTCE exam. The last two sessions of this course will focus solely on reviewing the new PTCE exam study guide and practice test. This program also includes an 80-hour clinical externship opportunity at a local health care service provider for students who qualify. Students will be required to provide immunization records, PPD (TB) test results, a negative nine-panel drug screen, and background check at their own cost (approximately $300 for externship).

Health Care Career Programs

Make your mark in an expanding career field that will change your life while making a difference in the lives of others.

According to the U.S. Bureau of Labor Statistics, eight of the top 20 fastest-growing professions are in the health care industry—an industry with more than 13 million jobs. And thanks to advances in medicine, and the country’s aging population, the demand for medical professionals is only increasing.

Our health care certificate programs can help you embark on a new career or advance your current health care career in as little as two months.

Online Professional Certificate in Nutrition for Optimal Health and Wellness

This program is designed for personal trainers, group fitness instructors, and other health and wellness professionals looking for a credible curriculum to gain expertise in advising their clients on nutrition. This online certificate program provides an in-depth examination of advanced sports nutrition, vitamin/protein supplementation, functional food implementation, antioxidants, and meal-plan analysis for optimal performance. The certificate will enhance your résumé and demonstrate to clients that you’re a qualified professional.

Each course is five weeks. Register anytime. Price per course is $399. The program is also ideal for registered dietitians (RD) and dietary technician-registered (DTR) professionals seeking CEUs, as well as health enthusiasts wanting to learn more about nutrition and healthy eating.

Instructor Melissa Halas-Liang is a nationally recognized nutrition educator, Registered Dietitian, Certified Diabetes Educator, and wellness expert.

Two Certificate Options

One: Nutrition for Optimal Health and Wellness Certificate
Successfully complete the following three online courses:

1. Nutrition and You: Functional Foods
2. Weight Management and Nutrition in the Lifecycle
3. Public Nutrition and Wellness Education

Two: Nutrition for Optimal Health and Wellness and Sports Certificate
Successfully complete the three courses above plus:

1. Introduction to Sports Nutrition and Performance

Professional Certificate in the Business of Craft Beer

Craft beer is complex and versatile, and it is a growing industry in San Diego. The city has more than 130 craft breweries and was recently named “Top Beer Town” in the U.S. SDSU College of Extended Studies created the Business of Craft Beer Certificate to foster an overall appreciation of craft beer through interactive, hands-on learning. The program provides a well-rounded experience of craft beer through the exploration of its past and present, current trends, styles, and business practices, and what the future holds for this booming industry. Classes are held on-site at local breweries and at SDSU.

Certificate Levels

Level One (Essential Certificate) — Take six classes to earn a certificate. Can be completed in one academic year.

Level Two (Expanded Certificate) — Take nine classes to earn a certificate. Can be completed in 1.5 academic years.

Students who complete the first course will be eligible to take the Cicerone® Certified Beer Server Exam at a discounted rate of $29.

Must be 21 years of age to register for this program. No more than one absence will be allowed in each course.

Professional Certificate in the Business of Wine

Build Your Wine Knowledge for a Competitive Edge in Your Career

The Business of Wine Professional Certificate is designed to prepare participants for success in wine-related occupations. Through engaging discussion and directed tastings, the Business of Wine courses let you experience the world of wine firsthand: wine education and business education.

These comprehensive courses are geared for professionals and entrepreneurs in the wine, food, and hospitality fields who want to quickly expand their knowledge of wine topics. The certificate is directed to: restaurant owners and staff, winery employees, event planners, distribution and retail sales employees, wine bar owners and staff, anyone interested in moving into wine or hospitality careers, and wine enthusiasts who desire a professional level education.

Visit neverstoplearning.net/wine.
Must be at least 21 years of age to participate in this program.
To earn a certificate, participants must complete the required core and elective courses within two years.

Certificate Requirements

Core Courses (all required)
- Exploring Wine (18 hours)
- Wine Making Behind the Scenes (nine hours)
- Business Opportunities in the Wine Industry (15 hours)
- Dynamic Wine and Food Pairing (six hours)

Elective Courses (two required; course offerings may vary each semester)
- The Character of Wine (nine hours)
- Wine List Creation (nine hours)
- Sensory Evaluation (six hours)
- Wine Flaws and Faults (six hours)
- Importing and Distribution (12 hours)

Beer and Wine: Service and Selling (six hours)

Intensive Courses (three required; nine hours of study each)
- Burgundy Wines
- California Wines
- Dessert Wines
- French Wines
- Italian Wines
- South American Wines

Location of Classes
- SDSU Extended Studies/Gateway Centers, corner of Campanile Drive and Hardy Ave.

Homeland Security
Forensic Psychology

NEW Professional Certificate in Forensic Psychology with an Emphasis in Mental Illness Risk Management Online

The field of forensic psychology examines the intersection between human behavior and the law. SDSU’s College of Extended Studies has partnered with SDSU’s Homeland Security Graduate Program to launch this comprehensive, online Professional Certificate in Forensic Psychology with an emphasis in Mental Illness Risk Management, specifically designed for individuals in law enforcement, fire and rescue, emergency management, and community organizing. It’s also ideally suited for those interested in forensic psychology, homeland security, public safety, and disaster-response humanitarian assistance.

Why This Certificate?
In recent years, it has become increasingly clear that interactions between emergency responders and the public they serve are becoming more difficult, frequently because of cultural differences and mental health challenges. Resulting miscommunication all too often leads to fatal altercations, and yet our emergency professionals receive little if any training in how to understand and mitigate these issues.

This certificate places special emphasis on the challenges emergency responders face in working with disabled and immigrant populations. It offers proven tools to boost resilience in both emergency professionals and civilians in the wake of natural disasters and other community traumas. It also enables community leaders and organizers to appreciate the community-oriented goals of law enforcement, helping to build trust and social capital on both sides, with the goal of generating real solutions.

For more information, visit neverstoplearning.net/FP, email Sara Roldan at roldan.sara.ruth@gmail.com, or (619) 804-9090.

Program Highlights
- Fully online, offered in English and Spanish
- Five eight-week courses
- Instructors are all content specialists with real-world experience

Who Will Benefit
This certificate program would be beneficial for those pursuing promotion, seeking Law Enforcement Officer (LEO) training, planning to enter graduate programs in forensic psychology, or simply wishing to expand their knowledge base. It may also fulfill continuing education unit (CEU) requirements. This curriculum is recommended for:

- Law enforcement professionals
- Fire and rescue professionals
- Other first responders
- Emergency managers
- Community organizers
- Forensic nurses
- Forensic social workers
- Corrections personnel
- Parole and probation workers
- Military police
- Victim advocates
- Elected Officials
- Counselors
- Pastors
- Attorneys
- Students

Certificate Requirements
To earn the Professional Certificate in Forensic Psychology, you must successfully complete two (2) core courses and three (3) electives within two (2) years. Additional courses may be taken for an advanced certificate.

Core Courses
- Introduction to Mental Health
- Introduction to Forensic Psychology
- Elective Courses (choose three)
  - Who is My Neighbor
  - Immigration Psychology
  - Correctional and Police Psychology
  - Cyber Psychology
  - Cross-cultural Adaptability
  - Countering Violent Extremism
  - Mental Health Resilience for First Responders
  - Active Shooter Challenges and Psychological Components
  - Disaster-Related Emotional Resilience for Survivors and First Responders

For more information, visit neverstoplearning.net/FP, email Sara Roldan at roldan.sara.ruth@gmail.com, or (619) 804-9090.
Human Resource Management

Professional Certificate in Human Resource Management

Human resource management is the human side of business — take yourself and your employees to new heights by obtaining a certificate in HR management. This program helps you advance your career, acquire new knowledge and skills, and provides entry-level experience for those new to the field of HR management, personnel, industrial, or employee relations.

Workplace Benefits

- Identify the core competencies needed for a career in human resources
- Build processes and procedures for a diverse workforce, recruitment, and ROI
- Learn how to communicate policies to employees
- Create an environment that attracts, retains, and recruits talent
- Understand the role of OSHA, safety, and compensation issues in the workplace

Location of Classes

SDSU Extended Studies/Gateway Centers, Hardy Avenue entrance, unless otherwise noted.

Education Required:

- Textbook Required: Textbook/course material information is available at sdsubookstore.com/es.
- Each Course Earns Three Units of SDSU Professional Development Credit (HR and the Law I and II each earn 2 units)

The Certificate

HR Management and the Law I

This introduction to labor and employment law will cover a wide variety of workplace topics including wage and hour law, employee classification, minimum wage and overtime laws, meal and rest period requirements, and other labor code requirements. Additional topics include vacation, PTO and sick leave; personnel records and privacy; drug testing and background checks; and confidentiality and company trade secret protection.

HR Management and the Law II

This introduction to California labor and employment law will cover a wide variety of workplace topics including wage and hour law, employee classification, minimum wage and overtime laws, meal and rest period requirements, and other labor code requirements. Additional topics include vacation, PTO and sick leave; personnel records and privacy; drug testing and background checks; and confidentiality and company trade secret protection.

Community members are welcome to attend SDSU’s One-Unit Weekend Courses, always on hot topics in areas such as public administration, political science, and international security. Each course is only $199 and meets only twice: typically a Friday/Saturday combination for a total of 16 classroom hours.

One-Unit Weekend courses are also a great way for undergraduate students to earn extra units for graduation.

“The class (Addressing Youth Gangs in the U.S.: Prevention, Intervention, and Suppression Strategies) was really enlightening on gang issues, especially locally. We were able to talk to reformed gang members as well as a police officer. Both perspectives were important aspects to the authenticity of the subject. I would definitely recommend it to people who just need the credit as well as people who are interested in working with youth.” — Elleisha Elzien

Professional Certificate in Lean Enterprise
The Lean philosophy is a strategy for achieving significant improvement in performance through the elimination of waste in the total business process.

The SDSU Professional Certificate in Lean Enterprise program introduces you to the Lean philosophy by incorporating learning tools that include simulations, exercises, lectures, assignments, and a final project.

Throughout the program, you work in project teams applying the Lean concepts to your workplace. A unique added value of SDSU’s Lean Enterprise program includes site tours of San Diego companies to see how they are applying Lean principles. Upon successful completion of the program, you receive a certificate of completion.

Professional Certificate in Project Management
Projects are becoming more complex, project managers and teams are often being asked to do more with less, and executives and clients expect innovation, agility, and responsiveness. We offer project management training, leading to a Professional Certificate in Project Management, designed to give project managers (and any other professionals who work on projects) the tools they need to successfully manage any type of project — regardless of scope or industry.

For more information or to bring all or part of this program to your organization, call (619) 594-1153, or email lean.ces@sdsu.edu.
SDSU Research Foundation Program

SDSU Research Foundation Program
Open University Certificate in Industrial/Organizational (I/O) Psychology

The College of Extended Studies and the SDSU Department of Psychology now offer a Certificate in Industrial/Organizational (I/O) Psychology. Industrial/organizational (I/O) psychology is the scientific study of the workplace. Using psychological theory and methodology, I/O psychologists contribute to evidence-based practice designed to improve understanding and management of human resources and organizational behavior.

Visit psychology.sdsu.edu/community/certificate-in-io-psychology. Please send questions and requests for the application form for the I/O Psychology Certificate to Professor Conte at jeff.conte@mail.sdsu.edu. For general information, contact the CES coordinator at (619) 594-2517.

Online Master of Public Administration

This competitive 16-month online degree program is offered to experienced professionals who currently work in government and nonprofit agencies. The rigorous format has been designed for working professionals who are currently employed in managerial positions in public administration, nonprofit administration, urban planning, criminal justice or related fields. Past experience in these fields will be considered for applicants who are not currently working in the public or nonprofit sector. The 36-unit curriculum is the same as the campus-based program; however, the fast-track, online program is taught in six, two-month modules with two on-campus experiences — one at the beginning and one at the end of the program.

The Curriculum

The MPA provides the knowledge and skill sets for students in management careers in government, community agencies, private not-for-profit organizations, planning and consulting firms, and private sector companies that work in partnership with the public sector. The courses, as well as the faculty who teach the online courses, are the same as the campus-based program. Students must take seven required courses that include: public administration theory, research methods, administrative theory, public personnel administration, public finance management, and public policy. Students take four electives that are tailored to the interests of each cohort. Examples of electives that may be offered include urban government administration, employer/employee relations, nonprofit relations and government, administrative behavior and comparative public administration. Students finish the program by completing a capstone course addressing a challenge at their place of employment.

Eligibility

Applicants holding a bachelor’s degree in any major from a regionally accredited university are eligible to apply for admission to the online MPA program. The applicant’s competitiveness will be largely based upon professional and past academic accomplishments in the field of public administration.

For application, tuition, and deadline information, please email rsobie@mail.sdsu.edu or visit us at neverstoplearning.net/mpa.
Master of Public Health Online
Fall 2017: SDSU Offers New Online Master of Public Health Program

San Diego State University’s fully online Master of Public Health (MPH) degree in Health Promotion and Behavioral Science is offered through the SDSU Graduate School of Public Health, and administered by the College of Extended Studies.

Upon graduation from this rigorous 20-month health science/public health degree, students will be able to develop, implement, evaluate, and critique public health programs. Developed exclusively for early- to mid-career professionals, this fully online program allows students to study on their own time while continuing to pursue their careers.

This program is accredited by the Council on Education for Public Health (CEPH).

Students will learn to:
- Use multiple sources of data to assess the health needs of a population
- Identify personal, social, political, and environmental determinants of health-related behaviors, morbidity, mortality, and health disparities
- Identify the most efficient and effective intervention strategies for improving population health
- Evaluate health promotion programs
- Develop scientific papers and presentations

Program Details
- 20-month program, fully online
- 51 units total
- Two 3-unit courses per eight-week session
- One-week break between sessions
- Accredited by CEPH

Admissions Criteria
- Bachelor’s degree in any major from an accredited university
- Undergraduate GPA of at least 2.85 overall
- Must have taken the GRE exam within the past five years
- A minimum of three years of full-time work experience, preferably in a public health career or organization
- Current full-time employment, preferably in a public health-related position

Course Descriptions and Registration
PH 602 Biostatistics
Statistical reasoning applied to public health; probability, hypothesis testing, regression and correlation, analysis of variance, measurement theory and modeling.
Prerequisite: Consent of instructor

PH 6061 Theoretical Foundations of Health Promotion
Psychological, sociological, economic, and political theories relevant to the mission and processes of health promotion.
Prerequisite: Public Health 290

PH 6062 Motivating Health Behavior
Application of behavioral change techniques and health education methodology to health promotion targeting individuals and whole communities.
Prerequisite: Public Health 303

PH 0666 Health Promotion Program Planning and Assessment
Program planning and assessment, theories, systems and procedures relevant to health promotion and education.
Prerequisite: Public Health 661, 662

For questions, please contact Brenda Fass-Holmes at (619) 594-4492 or bholmes@mail.sdsu.edu.

Regulatory Science

Regulatory science programs provide online education and training to enhance the professional excellence and career opportunities of scientists in the pharmaceutical, biotechnology, and medical device industries. Topics related to the discovery, development, testing, manufacture, commercialization, and post-marketing surveillance of pharmaceutical, biologic, and medical device products are at the core of these programs. Courses are designed to meet the continuing educational needs of those with undergraduate or advanced degrees in the sciences who are already employed or preparing for employment in these industries, although those who have academic preparation in the arts and would like to change career paths have also been very successful.

Programs include the following:
- A fully online advanced certificate consisting of a core subset of four courses from the degree program.
- A joint Advanced Certificate in Intellectual Property and Regulatory Affairs offered in partnership with USD School of Law. This six-course certificate provides an interdisciplinary approach to expand the knowledge base of life science professionals working to translate scientific discovery into commercial products. Students build professional skills that employers are seeking in science, law and business. Courses at USD School of Law are on campus. SDSU regulatory affairs courses are fully online.
- A fully online Master of Science Degree in Regulatory Affairs.
- An Interdisciplinary Certificate in Regulatory Affairs.
- A joint Advanced Certificate in Intellectual Property and Regulatory Affairs offered in partnership with USD School of Law.

For admissions information and degree requirements, see the program website at regsci.sdsu.edu or reference the regulatory science listing in the SDSU Graduate Bulletin at arweb.sdsu.edu/es/catalog/bulletin/gradcurriculumindex.html.

To reach the program directly, email regsci@mail.sdsu.edu or call (619) 594-6030.

*Approved provider for military spouse and veteran’s benefits for this program.
Earn Speech-Language and Hearing Sciences Academic Credit in California’s Top Program

U.S. News & World Report ranked San Diego State University's Speech, Language, and Hearing Sciences (SLHS) graduate program No. 1 in California and No. 24 in the nation.

To meet the demand for this renowned program, SDSU is now offering the online Speech-Language Pathology Essentials program.

Fully Online Speech-Language Pathology Essentials Program Details

- Eight-week online courses
- Led by lecturers from SDSU’s SLHS department
- Geared toward working professionals
- Take only the courses you need, based on interest or graduate program prerequisites
- Non-cohort

Additional Online Courses Coming Soon

For more information, visit neverstoplearning.net/SLP; email slp-online@mail.sdsu.edu, or call (619) 594-0242.

Speech-Language Pathology Essentials is a program of SDSU’s School of Speech, Language, and Hearing Sciences, administered through the College of Extended Studies.

Summer 2017 Courses
- SLHS 305 Hearing Science (3 units)
- SLHS 512 Phonological Acquisition and Disorders (3 units)

Fall 2017 Courses
- SLHS 300 Introduction to Language Science (3 units)
- SLHS 321 Anatomy and Physiology of Speech (4 units)
- SLHS 340 Principles of Audiology (3 units)
- SLHS 513 Foundations of Speech-Language Development (4 units)

Spring 2018 Courses
- SLHS 305 Hearing Science (3 units)
- SLHS 330 Phonetics (3 units)
- SLHS 512 Phonological Acquisition and Disorders (3 units)
- SLHS 514 Foundations of Speech-Language: Differences and Disorders in Children (4 units)

The courses are offered through SDSU’s College of Health and Human Services, in conjunction with SDSU’s College of Extended Studies. The SLP Essentials program is open to individuals not currently enrolled in an SDSU degree program.

Teaching English as a Second Language

Teach English All Over the World

ALI TESL/TEFL Certificate (Teaching English as a Second or Foreign Language)

If you are interested in traveling and earning a living at the same time, San Diego State University's College of Extended Studies has short-term day and night programs that train students to teach English.

College graduates who can teach English in foreign countries are in high demand in today's interconnected world. SDSU has a leading program that helps in the job search for qualified applicants. This program takes 130 hours to complete. Graduates will be equipped to teach English anywhere in the world.

Job Placement Assistance is Included

Graduates of this program have taught in more than 40 countries. You don't have to quit your day job to explore a new career! Day or evening — the same great program.

"The TESL/TEFL program at ALI exceeded my expectations. The instructors were knowledgeable and easy to follow. The opportunities for teaching and interacting with the ESL students were plentiful. I thoroughly enjoyed the learning experience." — Barbara Van Dyken

Visit us online at ali.sdsu.edu/teslteflcertificate, on facebook facebook.com/sdsutesltesfl, or contact Jason Greeno, ALI teacher training program director at (619) 594-8740, or email jgreeno@mail.sdsu.edu.

The College of Extended Studies is a state-approved provider for the federal workforce investment act, military spouse, and veteran's benefits for this program.

SDSU Research Foundation Program
“Give me six hours to chop down a tree and I will spend the first four sharpening the axe,” said Abraham Lincoln — clearly a proponent of preparation. To apply his strategy to academia, a...

The Department of Linguistics and Asian/Middle Eastern Languages offers a basic Certificate in Teaching English as a Second or Foreign Language (TESL/TEFL). The basic certificate requires 15 units including: Linguistics 420 or 501; 452, 454, or 552; 430, 530, or 551; 555 or 556; and 550. Under certain circumstances comparable courses taken at other institutions may count toward the certificate. Such courses must be evaluated and approved by the certificate advisor. In addition, there is a 15-hour tutoring practicum requirement.

Visit linguistics.sdsu.edu/certificates, contact the faculty advisor for the program, Rebecca Eggo at regimgo@mail.sdsu.edu, or Yasmine Panahi at ypanahi@mail.sdsu.edu, or call (619) 594-1918. For general information, contact the CES coordinator at (619) 594-2517. For more information, you may also email kmcetchin-w@sdsu.edu or call (619) 594-3946. Approved provider for military spouse and veterans’ benefits for this program.

SDSU’s test prep courses help students improve their test-taking potential to maximize test results.

“I wish I had started with the courses at SDSU as the first step. They narrowed down necessary information, providing encouragement and guidance to stay focused while preparing for the exam, making it less overwhelming.” — Shanna Harger

“The GMAT test-prep was a great foundation to start studying for the exam more efficiently. ... The teacher did an excellent and impressive job compacting so much information AND examples into his session.” — Hannah Fechter

GRE® General Test Graduate Record Exam

Section-Level Adaptive Computer-Based Test

Review concepts and skills in the three subject areas on the GRE® Revised General Test: quantitative reasoning (arithmetic, algebra, geometry, data analysis, data interpretation, and word problems); verbal reasoning (reading comprehension, text completion, and sentence equivalence); and analytical writing essay tasks (analyze an issue and analyze an argument). The textbook includes four full-length practice tests for enhanced home study.

Textbook: CliffsNotes GRE® General Test Prep.
Test Prep

“The instructors were great. They cut right to the chase. And the Bobrow book is phenomenal because it has really good practice tests and explanations of how to prepare properly. It was a great class.”
— Matthew Saeman

“Excellent and incredibly helpful. The strategies and diagrams will help save me time and allow me to organize my thoughts as well.”

GMAT — Graduate Management Admission Test
Computer-Adaptive Test
Identify your strengths and target your weaknesses as you learn about the GMAT content, question types, test-taking strategies, scoring and computer-adaptive testing. Subject areas covered are: math ability (problem solving and data sufficiency), reading comprehension, sentence correction, critical reasoning, integrated reasoning, and analytical essay writing assessment. The textbook includes four practice tests, important in-class practice by topic, and online integrated reasoning practice.
Textbook: CliffsNotes GMAT® Test Prep.

LSAT — Law School Admission Test
Learn how to analyze each exam area and apply your knowledge to strategize and respond to LSAT practice questions. Identify your strengths and target your weaknesses as you learn about each question type: analytical reasoning, logical reasoning, reading comprehension (including comparative reading), and the essay writing sample. The textbook provided in the workshop contains official practice tests.

Test Prep Retake Policy
We have a free repeat policy for the CBEST, GMAT, and GRE test prep classes. Save your proof of initial registration and payment to take advantage of this policy.

CBEST — California Basic Educational Skills Test
Written or Computer-Based Test
Pass this important California state teacher’s exam, with expert in-class instruction, successful test-taking strategies, computer-assisted information, and practice testing by topic area: mathematics, reading comprehension and essay writing. Class instruction includes a review of problem solving skills and math concepts, as well as approaches to help you improve your reading comprehension and essay writing skills.
Textbook: CliffsNotes CBEST® Test Prep.

Registration is available online at neverstoplearning.net/testprep, in person, or via phone at (619) 594-5152.
SDSU Research Foundation Programs

“Awesome, helpful insights! Took the class twice – now I am ready to tackle the GRE.”
— Melanie Fernandes

“I think this course should be mandatory before taking the GRE.”

“The quality of the instructors is what really made the class for me. They knew so much about the test and urged us to learn more about it in order to be successful.”
— Melanie Fernandes

For more information, you may also email kmcetchin-w@sdsu.edu or call (619) 594-3946.
Translation and Interpretation

**Open University Certificate in Translation and Interpretation**

Bilingual individuals in the 21st century have unprecedented opportunities for advancement in fast-growing professions (health and legal) with high demand for interpretation and translation. The Department of Spanish and Portuguese Languages and Literature offers a Certificate in Translation and Interpretation. A $35 application processing fee is required. The courses in this certificate consist of regular SDSU courses.

Visit spanish.sdsu.edu/certificate or email cdegueld@mail.sdsu.edu. For more information, you may also email kmcetchin-w@sdsu.edu or call (619) 594-3946. For general information, contact the CES coordinator at (619) 594-2517.

Women’s Studies

**Open University Certificate in Women’s Studies**

The Certificate in Women’s Studies is designed to provide training for individuals in any field who desire to increase their understanding of women in the humanities, health, and social sciences, as well as become proficient in understanding basic theories unique to the discipline. Women’s Studies offers two emphasis areas: a women’s studies overview and a health emphasis.

To complete this program, applicants must call the Department of Women’s Studies to arrange a meeting to talk with the program advisor and establish a course of study. The certificate program consists of 12 units/four courses, three of which must be at the 500-level. Students must maintain a minimum 2.75 grade point average.

For more information, visit womensstudies.sdsu.edu/general_certificate.htm or contact the faculty advisor for the certificate program, Doreen Mattingly at mattingl@mail.sdsu.edu, or (619) 594-8033, or Teddi Brock at (619) 594-2952, or via email tbrock@mail.sdsu.edu. For more information, you may also email kmcetchin-w@sdsu.edu or call (619) 594-3946.

Writing

**Open University Certificate in Professional Writing**

Excellent written and oral communication skills are critical to professional success in business, industry, and government. In an increasingly information-driven economy, good communication skills are in demand. This program teaches you these skills and prepares you for a career in professional, technical, and scientific writing. Participants enroll in regular SDSU professional writing courses on a space-available basis through the Open University program.

For more information, please visit rhetoric.sdsu.edu/certificates/professional_writing/index.htm or contact the program director, Linn Bekins at (619) 594-2211, or email lbekins@mail.sdsu.edu. For general information, contact Professor Steve Merriam at (619) 594-6331, or email smerriam@mail.sdsu.edu. For more information, you may also email kmcetchin-w@sdsu.edu or call (619) 594-3946.
Annual SDSU Writers’ Conference

Watch the website or social media for updates.

Immerse yourself in three days of networking with agents, editors, authors and your fellow writers, at a conference with a long history of launching literary careers. If you’re a writer with a dream, get one step closer to being a writer with an agent. This conference is designed to help writers of every genre, at every level, advance their skills and strategy for getting published.

Registrations which cannot be processed due to: full program.

Though no formal admission procedures are required for Admissions/Gateway Center on the SDSU Campus.

Map and Directions

Avenue, unless otherwise specified. Specific room Information detailed

Location of Courses

All courses are located in the SDSU Extended Studies/ Gateway Centers, corner of Campanile Drive and Hardy Avenue, unless otherwise specified. Specific room

and webpage.

Use of Social Security Number/Tax Credit Information

Applicants are required to show their Social Security Number in designated places on applications pursuant to the authority contained in Title 5, California Code of Regulations, Section 41201.

The Social Security Number is used as a means of identifying records pertaining to the student as well as identifying the student for purposes of financial aid eligibility and disbursement, and the repayment of financial aid and other debts payable to the University. It is also necessary in order to receive Lifetime Learning or Hope Scholarship tax credit.

Payments made to the SDSU Foundation do not qualify for a Lifetime Learning or Hope Scholarship tax credit. For more information go to http://bfa.sdsu.edu/fmc/ftf/fts/taxrelief. html.

SDSU ReID

San Diego State University uses a student identification number called SDSU ReID as your primary source of identification for all transactions at SDSU. For information on how to obtain an SDSU ID card with your ReID, go to SDSUcard.sdsu.edu. Financial, regulatory, and reporting transactions will still use Social Security Numbers and you must provide your Social Security Number on your registration if you wish to receive documentation from SDSU for tax credit purposes. However, your primary source of identification is your SDSU ReID.

To look up your ReID, go to neverstoplearning.net and register online.

Library and SDSU ReID Cards

Students wishing to purchase an SDSU ReID card with photo, must pay $18 to the Extended Studies Cashier after registering and present the receipt to the Photo ID office in the SDSU card office. Extended Studies ID cards are valid only for the duration of the class taken.

Online Web Portal Accounts

All Extended Studies students taking credit courses who need to access SDSU online services (transcripts, library, blackboard, etc.) should create an SDSU web portal account by going to sdsu.edu/webportal. Students may create accounts 48–72 hours after registration payment in CES courses. Students can create new accounts beginning on the first day of the SDSU term.

Smoking Guidelines

SDSU is a smoke-free campus. For more information see smokefree.sdsu.edu.

Drops/Refunds/Withdrawals

You may drop/withdraw from a course online at neverstoplearning.net, completing an official transaction form for the College of Extended Studies. Drop/Withdrawals done by mail are effective as of the postmark date.

Open University Courses

See Online University Registration Information for refund information. Instructor’s signature is required to drop or withdraw from courses at anytime.

Late Program Changes

Additional deadlines established after deadline dates may be done by petition only. Obtain a “Petition for Special Consideration” from the Extended Studies registration office. Petitions will only be considered for serious and compelling reasons beyond the student’s control. Documentation is necessary for consideration.

Parking Rules for Gateway/Extended Studies Center Users (CES Permits)

CES parking permits are required 24 hours a day, seven days a week in Parking Structure 6 (formerly 2) on Hardy Avenue If you are attending an eligible course sponsored by the College of Extended Studies (not Open University) you will receive your parking permit by email, as part of your class confirmation. This CES registration confirmation serves as your parking permit. Place the confirmation on your dashboard. Duplicate registration confirmation permits are also available from the CES registration office. If you receive an email immediately to print your parking confirmation in color and display it on your dashboard. If you do not bring your confirmation, you will need to pay for SDSU visitor parking on the first day of the course.
No parking is permitted at any time in the following areas: special permit areas, handicapped zones, service areas, any area marked or painted red, any area not clearly designated as a parking space, or any area posted with a sign or designation restricting or defining specific use. Motorcycle parks in motorcycle stalls only. They will be cited if parked in a vehicle stall. Permits are required at all times.

Handicapped Parking: A disabled placard, disabled plate, or a temporary placard authorized by the DMV are required to be displayed at all times — in addition to a current CES parking permit.

Visitor pay parking permits for $2 per hour are available to all SDSU/SDSU students if needed. Pay permit machines are located throughout campus; the closest to Gateway/Extended Studies Center are Lots 3, 6B, 7, 8, 10, and 12.

Open University: Open University and other semester-long program students must purchase an SDSU parking permit online at the Aztec Parking Portal for use in all SDSU student lots.

SDSU student decals are not valid in Parking Structure 6. Official SDSU parking regulations can be found at sdsu.edu/parking.

Legal parking is the responsibility of the individual.

### Campus Parking (Open University) (SDSU Student Permits)
Parking permits are required for the use of student and faculty/staff spaces, 24 hours a day, 7 days a week. No parking is permitted at any time in the following areas: special permit areas, handicapped zones, service areas, any area marked or painted red, any area not clearly designated as a parking space, or any area posted with a sign or designation restricting or defining specific use. Due to construction and special events, parking permits may vary. Parking information and visitor permits are available through the Public Safety Department or Dispatcher in the DPS Building, (619) 594-1991.

Week-long or semester permits (decals) may be purchased online at the Aztec Parking Portal.

A limited number of motorcycle permits are available. Motorcycle Lots 1, 2, 3, 4, 5, 6A, 6B, 7, 9A, 12, 14, 16, and 17A. Motorcycles must park in motorcycle stalls only. They will be cited if parked in vehicle stalls. Permits are required at all times. If you have a vehicle and a motorcycle you may be eligible for a free motorcycle permit. Please contact the Parking Business Office for more information.

For information on current SDSU parking permit fees, go to sdsu.edu/parking. Proper/legal parking is the responsibility of the individual. The purchase of a permit does not guarantee a space, and lack of parking/transportation is not justification for refunds. Problems should be referred to the Parking Services Dept. at (619) 594-6671. Escorts are available from dusk to dawn to assist campus, vehicles, or residence halls by calling (619) 594-6659. Certain restrictions may apply. For emergencies, dial 911.

### Financial Aid Options
There are several financial aid opportunities available to students who wish to complete programs at the College of Extended Studies and SDSUce. The College of Extended Studies has specific eligibility requirements to receive this funding. To determine if you qualify, visit one of the six One-Stop Career Centers in San Diego.

### Workforce Development Financial Aid
More than 40 programs at the College of Extended Studies are approved by the local San Diego Workforce Partnership for free tuition. The Workforce Development Partnership has specific eligibility requirements to receive this funding. To determine if you qualify, visit one of the six One-Stop Career Centers in San Diego.

### Military Spouse Financial Aid
If you are the spouse of a military person, you are eligible for free military aid through the Military Spouse Department of Defense financial aid program. A variety of educational opportunities are available to choose from in areas such as health care, hospitality, technology, construction, and human resources.

### Local Lending Institutions
Various local banks, credit unions, and lending institutions now offer private loan programs specifically for continuing education. Check with your local financial institution to see what types of programs may be available.

### Company Tuition Reimbursement
Many companies and organizations have tuition reimbursement programs for their employees. Check with your human resources department to see if you qualify. Some companies will also pay for the costs up-front.

### SDSU Student Financial Aid
If you are a matriculated SDSU student in a degree program and wish to take an extended studies course dated, you may be eligible to qualify for SDSU financial aid. Check with the SDSU financial aid at (619) 594-6323. For additional information, please contact the CES registration office at (619) 594-5152.

### In-Person Registration
In-person registrations are processed immediately and students walk away with a clear confirmation and payment receipt. We will provide forms for those registering in person. Registrations turned in to the drop box during non-registration hours will be accepted and processed as mail.

### Online Registration
You may register with your Visa, Discover Card, American Express, or MasterCard on our secure website: NeverStopLearning.net. All fees, dates, and other registration policies apply to online registrations. You may not drop or withdraw from a course online (see refund procedures).

### Course Registration Confirmation and Parking Permits Via Email
Course Registration Confirmation and CES Parking Permits are mailed upon registration and payment. Duplicate registration confirmation/parking permits are also available from the CES registration office.

### Mail Registration
To register by mail, complete the PDF registration form. Mail to: College of Extended Studies Registration, 5250 Campanile Drive, San Diego, CA 92182. Call (619) 594-6919.

You will receive a confirmation and receipt by email. If you have not received confirmation by the first day of class, attend class and then confirm your registration with Extended Studies. Failure to receive confirmation is not a valid reason to not attend class. We are not responsible for lost, late, or misdirected mail.

### Telephone Registration (not available for Open University)
Register online with your Visa, Discover Card, American Express, or MasterCard at (619) 594-5152. You will receive a confirmation and payment receipt by email.

### Fees
All programs offered by the College of Extended Studies are supported by participant tuition. Fees for classes and seminars vary with the course offering. Some classes, credit and noncredit, may carry additional costs for textbooks, materials, etc. Fees are subject to change without notice.

### Privacy Rights of Students in Education Records
You have the right:

- to inspect and review your records;
- to request inaccurate or misleading information be amended;
- to restrict disclosures of information about you (except as provided by law);
- to file a complaint if we violate your rights; and,
- to obtain a copy of our Student Records Policy. (See “Student Privacy Rights of Students in Education Records” in the SDSU catalog for further information.)

You may Update your personal information: mailing address, telephone number and email preferences, and password at My CES Gateway. Do not share your email address with other organizations.

### Course Credit
Extension and Professional Development Credit
The maximum amount of extension credit which may be accepted toward a bachelor’s degree is 24 semester units. Extension credit is not counted in satisfaction of the minimum residence requirements. For graduate students, extension courses at San Diego State University may be accepted as fulfilling no more than 30% of the requirements for an advanced degree. For more information, contact the Division of Graduate Affairs at gra@mail.sdsu.edu, visit arweb.sdsu.edu/grad or call (619) 594-5213.

### Certificates
There is no limit to the number of certificate courses you may take. However, courses numbered 01 through 79 are professional advancement units offered to meet specific academic needs. Courses 01 through 49 are designated as lower division and 50 through 79 are designated as upper division. It is the prerogative of the academic department/ college to determine if 01 through 79 level courses are applicable to a major or minor toward specified electives. These courses are not acceptable toward advanced degree programs. All records of certificate credit are kept by the SDSU Office of the Registrar.

### Special Sessions
Special session course credit is resident credit and may be applied toward SDSU degree requirements. For undergraduate students, no more than 24 units may be taken prior to admission to SDSU; for advanced degrees or advanced certificates, no more than 30% of the program of study may be taken prior to matriculation. For more information, contact the Division of Graduate Affairs at gra@mail.sdsu.edu, visit arweb.sdsu.edu/adsmissions or call (619) 594-5213. There is no limit to the number of special session courses you may take. Consult your advisor about the applicability of a special session course credit to your major/minor in the student’s SDSU scholastic average. All records of course credit are kept by the SDSU Office of the Registrar.

### Noncredit
Noncredit courses do not earn academic credit and are used for personal enrichment only. We cannot confirm completion of noncredit courses. If you plan to ask your instructor for verification of participation, you must attend all sessions and complete all assignments.

### Continuing Education Units
The College of Extended Studies awards Continuing Education Units (CEUs) to persons enrolled in, and completing, noncredit or noncertification programs. One continuing education unit is defined as ten contact hours of participation in an organized continuing education experience under responsible sponsorship, capable direction, and qualified instruction.

The primary purpose of the CEU is to provide a permanent record of the educational accomplishments of an individual who has taken an educational program. This record can be used to give employers and professional associations and societies a uniform measure of short-term educational programs completed by an individual.
Open University Credit Requirements

Open University course credit is nonmatriculated resident credit. Students who have not been admitted to the University will not receive resident credit. Twenty-four units or four units of Open University credit may be applied toward an SDSU undergraduate degree. For graduate students, not more than five units of credit numbered 01 through 799 are strictly graduate courses; those numbered 600 through 799 are applicable to advanced degrees when taken by students admitted to graduate standing. Those numbered 600 through 799 are applicable to advanced degrees when taken by students admitted to graduate standing. Courses numbered 80–99 are non-baccalaureate level courses.

Of a credit course. To change status, complete an audit card at the College of Extended Studies registration office. All transcripts come from the SDSU Office of the Registrar.

Veterans Administration Benefits

All veterans must certify that they are aware that any registration changes may alter their financial aid. They will have to understand the fee schedule. They will be liable for any overpayment they may receive from the Veterans Administration.

International Students

Regard these, all nonmatriculated international students must consult the sponsoring academic department to ascertain the applicability of 01 through 79 level courses offered in any certificate program toward their proposed course of study.

Grading Procedures/Auditing and CR/NC

To pursue an undergraduate degree at SDSU should consult the sponsoring academic department to ascertain the applicability of 01 through 79 level courses offered in any certificate program toward their proposed course of study.

Transcripts (for credit courses only)

All transcripts come from the SDSU Office of the Registrar. To obtain an official transcript, order online via the SDSU Web Portal at sdsu.edu/webportal. The fee for each transcript is $35. All transcripts are mailed person in the SDSU Office of the Registrar for a cost of $20 each. If you have taken extension courses, indicate this information on your transcript.

Enrollment Verifications (credit and noncourse courses)

To request an enrollment verification, complete the CES enrollment verification form and fax it to the College of Extended Studies registration office at (619) 594-0147. Please allow 10 business day to process the request.

Retained Checks/Charges

If your check or charge is returned by the bank for any reason, the cashier’s office will send a letter requesting payment for the amount of the original deposited item plus a $35 disputed payment charge. A $25 late fee will also be charged if applicable. The amount due may be charged to your account or customer may be charged for the amount in cash, cashier’s check, or money order to the cashier’s office. Nonpayment of fees may result in cancellation of registration and/or withholding of further services until all financial liabilities have been met.

The state has the authority to withhold amounts owed to the University from any future state tax refund to which you may be entitled.

Students who have had checks returned may also be prohibited from purchasing textbooks. If you have previously had a disputed check, no personal checks, even from another person, are acceptable on your behalf.

Parking Fee Refunds

For the SDSU parking refund schedule, see the SDSU catalog. Refunds can be obtained at either the University or the CES cashier’s office. The amount of refund is rounded amounts due the University.

SDSU Accreditation/State Authorizations/Complaint Process

California State University is accredited by the Senior College and Community College Commission of the WASC. California State University is accredited by the Senior College and Community College Commission of the WASC. California State University monitors developments in state laws in every state. If authorization is necessary or becomes necessary, California State University will seek out the required additional approvals.

Pursuant to the United States Department Education’s Program Integrity Rule, each institution of higher education is required to provide all prospective and enrolled students with the information to the state agency or agencies that handle complaints against the California State University. For more information see calstate.edu/acadAff/state- regulatory-authorizations.

SDSU Nondiscrimination Policy

The Office of the Ombudsmann, (619) 594-6578, and the Title IX coordinator and associate vice president for administration, located in Administration, Room 320, (619) 594-0147, jrentto@mail.sdsu.edu. University policy, as well as state and federal law, prohibits retaliation against an individual who files a complaint of discrimination or harassment or who participates in the investigation of such a complaint. More detailed information regarding SDSU nondiscrimination policies and instructions on filing a complaint can be found at ombudsman.sdsu.edu.

Inquiries Concerning Compliance

For the specific campus officer(s) identified above or to the Regional Title IX coordinator and associate vice president for administration, located in Administration, Room 320, (619) 594-0147, jrentto@mail.sdsu.edu. University policy, as well as state and federal law, prohibits retaliation against an individual who files a complaint of discrimination or harassment or who participates in the investigation of such a complaint. More detailed information regarding SDSU nondiscrimination policies and instructions on filing a complaint can be found at ombudsman.sdsu.edu.
