## Become an Equity-Driven School Leader

### Program Overview

To help you become a leader in your school community, we've created the Online Preliminary Administrative Services Credential program. This online leadership program is designed to provide you with the educational leadership skills and knowledge you need to pass the California Administrator Performance Assessment, leading to licensure in the State of California.

Engaged, inspired, and successful learners are those who see connections between their academic and personal performance as a student and their educational, civic, social, and familial aspirations and responsibilities.

An equity-driven school leader insists that gaps in learning opportunities are eliminated by creating the conditions necessary for all students to set goals and achieve in school and in life.

They ask themselves these questions to stimulate thought and provoke action:

1. Do our stakeholders (including students) feel informed, valued, and engaged in creating conditions for all students to aspire and achieve in school and in life?
2. Do my words and behavior as a school leader build trust and communicate, model, and promote our shared vision of engaged, inspired, and successful learners?
3. Is our student body fully composed of engaged, inspired, and successful learners who are able to perform at the ambitious academic levels needed to succeed in school and community?
