Build Your Path to Promotion

The U.S. Department of Labor projects a 13 percent increase in jobs for construction laborers and 5 percent growth for construction managers through 2024. The demand for skilled professionals and construction managers is high with over 400,000 jobs posted in the last 12 months. Whether you’re already part of this rapidly growing industry or seeking a foothold, taking part in one of SDSU’s online construction programs can put you in a position to succeed in the construction industry.

Choose from Five Professional Certificate Programs and Two Introductory Courses, All Fully Online

**Introductory Construction Courses**
Learn basic skills to jumpstart your career in one of two online introductory construction courses.

**Civil Sitework**
Learn how to select, use, and budget for transforming a plot of land into a developed site.

**Construction Estimating**
Get an overview of basic and advanced principles of construction estimating and bidding.

**Construction Practices**
Learn blueprint reading, estimating, scheduling, and the legal aspects of construction.

**Construction Project Management**
Learn how to manage a variety of projects through all stages—from proposal to timely and cost-effective completion.

**Construction Supervision**
Learn how to plan, prepare, and update project schedules; work with contract documents.

Courses may be taken individually. All courses are online.
Spring I 2020 Session is Jan. 13–March 22 | Register by Jan. 17

All programs are offered in cooperation with the Associated General Contractors of America.

The Certificate in Construction Estimating courses are endorsed by the San Diego Chapter of the American Society of Professional Estimators.
