Testimonials

"Coordinating the courses on our campus promotes flexibility, easy accessibility, and efficiency of time. It has been nothing but a positive experience!" — Christine Fuentes, Middle School Learning Support Teacher

"I believe cultural competency should be a graduation requirement for all SDSU students or included as part of the general education requirement. The course has been life-changing for me." — Course evaluation response

"The SDSU courses provided me with the opportunity to learn from and with professionals outside of my normal working pattern. The groups cross over grade-levels and disciplines, which always makes the conversations rich with experience and new perspectives; I always look forward to the classes and come away with new understandings." — Stefanie Donnelly, High School Special Education Teacher

*Please check with your district about how credit may be applied toward salary advancement or credential renewal. Not all coursework may qualify.
