Pharmacy technicians work in pharmacies under the direction of a pharmacist. Their main responsibility is filling prescriptions according to doctors’ orders. This generally includes retrieving drugs in the correct form, measuring the dosage, and producing a prescription label. Pharmacy technicians work with drugs to be administered orally and topically, and may be involved in the admixture of drugs for intravenous use, depending upon the practice setting.

Employment Prospects
According to the U.S. Department of Labor, employment of pharmacy technicians is projected to grow 12 percent from 2016 to 2026, faster than the average for all occupations.

SDSU’s Pharmacy Technician Training and Test Prep Program
This comprehensive 59.5-hour program prepares students to work as a pharmacy technician in a wide variety of settings. Course content, delivered through classroom lecture and hands-on labs, includes pharmacy medical terminology, history of pharmacy, pharmacy practice in multiple environments, calculations and measurements, reading and interpreting prescriptions, defining drugs by generic and brand names, dispensing of prescriptions, and inventory control. The last two class sessions focus solely on reviewing the Pharmacy Technician Certification Board study guide and taking a practice exam. See the FAQs online for details. The program includes an 80-hour clinical externship at a local health care service provider for students who qualify.

Prerequisites
- A high school diploma or GED
- The ability to read, write, and comprehend English
- Basic arithmetic skills: addition, subtraction, multiplication, and division

Key Areas Covered
- Checking inventories and ordering supplies
- Receiving and checking in supplies
- Assisting customers
- Keeping pharmacy work areas clean
- Completing insurance forms
- Pharmacy Technician Certification Board’s PTCE test prep

Tuition and Fees
The total program fee is $1,599 and includes textbooks and parking. This amount must be paid in full at the time of registration. Payment plans are not available. Financial Aid Options are listed on our website. Note: All course offerings and prices are subject to change.

Schedule
The Pharmacy Technician Training and Test Prep program is offered in spring, summer, and fall.

For more information, email healthcare.ces@sdsu.edu or call (619) 594-0845.

SDSU Research Foundation Program
