

Shape the Future of Health Care in Your Community

Learn what it takes to become a leader in public health by earning your **B.S. in Public Health through SDSU's online degree completion program.**

Help expand access to equitable health care solutions and promote community wellness across the globe. Finish your bachelor's degree with San Diego State University.

How to Apply

To be fully qualified for admission to the B.S. in Public Health program, you should have 60 or more semester units (90 or more quarter units) completed by the term prior to transfer. You should also have a 2.9+ GPA and satisfy all CSU requirements.

We understand that every student's academic journey is unique, and we encourage you to contact your Student Service Representative to find out what you'll need to successfully apply to the program.

For application instructions, please visit neverstoplearning.net/bspublichealth.

Program Highlights

- Earn your degree in as few as 2 years
- 100% online courses ideal for working professionals
- Focus on serving diverse populations with sensitivity and respect
- Led by exceptional faculty and facilitators from SDSU's School of Public Health — one of four CEPH-accredited schools of public health in California.
- Earn the same highly-respected bachelor's degree as students in SDSU's on-campus program

The program will help build your foundational knowledge across six major domains of public health:

- Health Promotion and Behavior
- Epidemiology
- Statistics
- Environmental Health
- Health Services Administration
- International/Global Health
